

**CORPORATE GOVERNANCE STATEMENT
31 December 2022**

This Corporate Governance Statement of Dominion Minerals Limited (**Dominion or the Company**) has been prepared in accordance with the Australian Securities Exchange's (**ASX**) Corporate Governance Principles and Recommendations of the ASX Corporate Governance Council (**ASX Principles and Recommendations**). The Company's ASX Appendix 4G, which is a checklist cross-referencing the ASX Principles and Recommendations to the relevant disclosures in either this statement, our website or our Annual Report, can be found on our website at <https://dominion-minerals.com/investors/corporate-governance/>.

This statement has been approved by the Company's Board of Directors (**Board**) and is current as at 31 March 2023.

The ASX Principles and Recommendations and the Company's response as to how and whether it follows those recommendations are set out below.

Principle 1 - Lay solid foundations for management and oversight.

Recommendation 1.1: A listed entity should disclose: (a) the respective roles and responsibilities of its board and management; and (b) those matters expressly reserved to the board and those delegated to management.

The Board is ultimately accountable for the performance of the Company and provides leadership and sets the strategic objectives of the Company. It appoints all senior executives and assesses their performance. It is responsible for overseeing all corporate reporting systems, remuneration frameworks, governance issues, and stakeholder communications. Decisions reserved for the Board relate to those that have a fundamental impact on the Company, such as acquisitions and divestments, any material changes in business operations, and capital raising transactions.

The Executive Director is responsible for implementing the Board's strategy, day-to-day operations, and ensuring that all risks and performance issues are brought to the Board's attention. They must operate within the risk and authorisation parameters set by the Board.

Recommendation 1.2: A listed entity should: (a) undertake appropriate checks before appointing a person or putting forward to security holders a candidate for election, as a director; and (b) provide security holders with all material information in its possession relevant to a decision on whether or not to elect or re-elect a director.

The Board has established a policy for the Nomination and Appointment of Directors and the Company undertakes reference checks prior to the appointment of a Director, or putting a person forward as a candidate, to ensure that the person is competent, experienced, and would not be impaired in any way from undertaking the duties of Director. Where appropriate, the Company seeks advice from external advisors in connection with the suitability of applicants for Board appointment and provides shareholders with relevant information for their consideration about the attributes of the candidates as well as whether the Board supports an appointment or re-election. The Company undertakes criminal background checks and bankruptcy checks for all Directors and officers of the Company at the time of their appointment.

Recommendation 1.3: A listed entity should have a written agreement with each director and senior executive setting out the terms of their appointment.

The terms of the appointment of each Director and senior executives are agreed upon and set out in a written agreement at the time of appointment.

CORPORATE GOVERNANCE STATEMENT

Recommendation 1.4: The company secretary of a listed entity should be accountable directly to the board, through the chair, on all matters to do with the proper functioning of the board.

The company secretary reports directly to the Chairman on all Board related matters.

The company secretary is accessible to all Directors.

Recommendation 1.5: A listed entity should: (a) have a diversity policy which includes requirements for the board or a relevant committee of the board to set measurable objectives for achieving gender diversity and to assess annually both the objectives and the entity's progress in achieving them; (b) disclose that policy or a summary of it; and (c) disclose as at the end of each reporting period the measurable objectives for achieving gender diversity set by the board or a relevant committee of the board in accordance with the entity's diversity policy and its progress towards achieving them and either: (1) the respective proportions of men and women on the board, in senior executive positions and across the whole organisation (including how the entity has defined "senior executive" for these purposes); or (2) if the entity is a "relevant employer" under the Workplace Gender Equality Act, the entity's most recent "Gender Equality Indicators", as defined in and published under that Act.

The Company has established a Diversity Policy, which is available on the Company's website. In summary the Diversity Policy encourages the bringing together of people of different gender, age, ethnicity, and cultural backgrounds who possess a diverse range of experiences and perspectives.

Although the Company seeks to promote diversity, including gender diversity, within the group as positions and appropriate candidates become available, due to the limited number of people currently employed by the Company, it does not currently require that the Board set any measurable objectives for achieving gender diversity.

As at the date of this report, there were no women appointed to the Board or in senior executive positions.

No entity within the consolidated group is a 'relevant employer' for the purposes of the *Workplace Gender Equality Act 2012* and so no Gender Equality Indicators are disclosed.

Recommendation 1.6: A listed entity should (a) have and disclose a process for periodically evaluating the performance of the Board, its committees, and individual directors; and (b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.

The Company periodically reviews the Board and Committee performance against certain standards. However, due to the restructuring of the Board that occurred in the final quarter of the 2021 financial year no performance evaluations were undertaken for the Board, its committees, or individual directors during the year.

Recommendation 1.7: A listed entity should: (a) have and disclose a process for periodically evaluating the performance of its senior executives; and (b) disclose, in relation to each reporting period, whether a performance evaluation was undertaken in the reporting period in accordance with that process.

The Company has a policy to periodically review the performance of its senior executives against agreed performance measures. Due the appointment of the current Executive Director effective 1 November 2021, no performance evaluation was undertaken during the financial year for the Executive Director.

CORPORATE GOVERNANCE STATEMENT

Principle 2 - Structure the board to add value

Recommendation 2.1: The board of a listed entity should:

(a) have a nomination committee which:

- (1) has at least three members, a majority of whom are independent directors; and**
- (2) is chaired by an independent director,**

and disclose:

- (3) the charter of the committee;**
 - (4) the members of the committee; and**
 - (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or**
- (b) if it does not have a nomination committee, disclose that fact and the processes it employs to address board succession issues and to ensure that the board has the appropriate balance of skills, knowledge, experience, independence, and diversity to enable it to discharge its duties and responsibilities effectively.**

The Board considers that the Company is not currently of a sufficient size to justify the formation of a separate Nomination Committee, so the Board as a whole performs the role of a Nomination Committee. The Company's Policy for Nomination and Appointment of Directors is available on the Company's website. Under the policy, the criteria for determining the identification and appointment of suitable candidates for the Board shall include the quality of the individual, their background of experience and achievements, their credibility within the Company's scope of activities, and their ability to undertake Board duties and responsibilities.

Where necessary, the Board seeks advice from external advisors in connection with the suitability of applicants for Board membership.

Recommendation 2.2: A listed entity should have and disclose a board skills matrix setting out the mix of skills and diversity that the board currently has or is looking to achieve in its membership.

The Board considers that its membership should comprise directors with an appropriate mix of skills, experience and personal attributes that allow the directors individually and the Board collectively to discharge their responsibilities and duties under the law effectively and efficiently. Directors should also understand the Company's business and the environment in which the Company operates so as to be able to work with management to agree the objectives, goals and strategic direction which will maximise shareholder value, and to assess the performance of management in meeting those objectives and goals. The Board strives to achieve diversity in its composition. The current directors collectively bring to the Board a broad range of experience, expertise, skills, and contacts relevant to Dominion and its business.

- Strategic thinking ability
- Financial literacy and acumen
- Specific industry knowledge / experience including in the USA.
- Experience in the mineral exploration and development industry
- Understanding of market drivers, risks, policies, and competitors
- Capital management and raising – relevant networks.
- Experience in BD and corporate transactions
- People, performance, and remuneration experience
- Governance experience including in the ASX

CORPORATE GOVERNANCE STATEMENT

Recommendation 2.3: A listed entity should disclose: (a) the names of the directors considered by the board to be independent directors; (b) if a director has an interest, position, association or relationship of the type described in Box 2.3 but the board is of the opinion that it does not compromise the independence of the director, the nature of the interest, position, association or relationship in question and an explanation of why the board is of that opinion; and (c) the length of service of each director.

Details of the Board of Directors, their appointment dated, length of service as at the date of this statement, and independence status is as follows:

Director's name	Appointment date	Length of service at reporting date	Independence status	Non-executive
Dr David Brookes	10 April, 2019	3 years, 11 months	Independent	Yes
Mr Anastasios Arima	1 November 2021	1 year 5 months	Independent	Yes
Mr Dominic Allen	1 November 2021	1 year 5 months	Not independent	No

The Board may determine that a Director is independent notwithstanding the existence of an interest, position, association, or relationship of the kind identified in the examples listed under Recommendation 2.3 of the ASX Principles and Recommendations. No current Director has been deemed independent through this process.

Recommendation 2.4: A majority of the board of a listed entity should be independent directors.

Having regard to the response to Recommendation 2.3 above, the majority of the Board at the reporting date are independent.

Recommendation 2.5: The chair of the board of a listed entity should be an independent director and, in particular, should not be the same person as the CEO of the entity.

The Chairman of the Board is Dr David Brookes who is an independent non-executive director.

Recommendation 2.6: A listed entity should have a program for inducting new directors and provide appropriate professional development opportunities for directors to develop and maintain the skills and knowledge needed to perform their role as directors effectively.

New Directors undertake an induction program coordinated by the Company Secretary that briefs and informs the Director on all relevant aspects of the Company's operations and background. The Company does not currently have any formal Director development program in place.

Principle 3 - Act ethically and responsibly

Recommendation 3.1: A listed entity should: articulate and disclose its values.

The Company's values are embodied within the Code of Ethics and Conduct for Directors and Corporate Code of Conduct which are available on the Company's website.

Recommendation 3.2: A listed entity should: (a) have a code of conduct for its directors, senior executives, and employees; and (b) ensure that the board or a committee is informed of any material breaches of the code.

The Company maintains codes of conduct for its Directors, senior executives and employees. In summary, the code requires that each person act honestly, in good faith and in the best interests of the Company; exercise a duty of care; use the powers of office in the best interests of the Company and not for personal gain, declare any conflict of interest; safeguard Company's assets and information that may jeopardise the reputation of Company.

The codes are available on the Company's website.

CORPORATE GOVERNANCE STATEMENT

Recommendation 3.3: A listed entity should: (a) have and disclose a whistleblower policy; and (b) ensure that the board or a committee is informed of any material incidents reported under that policy.

The Company has adopted a Whistleblower Policy intended to support and protect persons who speak up about any unlawful, unethical, or irresponsible behaviour within the organisation, a copy of which is available in the Corporate Policy section of the Company's website. The Board are informed of material incidents reported under the Company's Whistleblower Policy.

Recommendation 3.4: A listed entity should: (a) have and disclose an anti-bribery and corruption policy; and (b) ensure that the board or a committee is informed of any material breaches of the policy.

The Company has adopted an Anti-Bribery and Corruption (ABC) Policy which links to the Code of Conduct by which the Company expects its operations and business dealings to be managed. The ABC Policy prohibits the giving of bribes or other improper payments and specifies the controls around the giving of donations and the acceptance of gifts or hospitality by officers of the Company. The ABC Policy requires the Board to be informed of any material breaches of the ABC Policy. The ABC policy is available in the Corporate Policy section of the Company's website.

Principle 4 - Safeguard integrity in corporate reporting

Recommendation 4.1: The board of a listed entity should: (a) have an audit committee which: (1) has at least three members, all of whom are non-executive directors and a majority of whom are independent directors; and (2) is chaired by an independent director, who is not the chair of the board, and disclose: (3) the charter of the committee; (4) the relevant qualifications and experience of the members of the committee; and (5) in relation to each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have an audit committee, disclose that fact and the processes it employs that independently verify and safeguard the integrity of its corporate reporting, including the processes for the appointment and removal of the external auditor and the rotation of the audit engagement partner.

The Board considers that the Company is not currently of a sufficient size to justify the formation of a separate Audit Committee, so the Board as a whole performs the role of the Audit Committee.

The Charter of the Committee is available at the Company's website.

Recommendation 4.2: The board of a listed entity should, before it approves the entity's financial statements for a financial period, receive from its CEO and CFO a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

In respect to full year and half year financial reports, the Board obtains a written declaration from the CEO (or equivalent) and CFO (or equivalent) that, in their opinion, the financial records of the Company have been properly maintained and the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion is formed on the basis of a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting and material business risks. However, the Board will not receive declarations from the CEO (or equivalent) and CFO (or equivalent) in respect of the quarterly cash flow reports prepared and lodged in compliance with Appendix 5B of the Listing Rules as these quarterly cash flow reports are considered by the Board:

- not to be a financial report or interim financial report as defined under Australian accounting standards; and / or
- not to be capable, as a standalone report, of giving a true and fair view of the financial position and performance of the Company, only its cash flows for the relevant reporting period.

CORPORATE GOVERNANCE STATEMENT

Recommendation 4.3: A listed entity should disclose its process to verify the integrity of any periodic corporate report it releases to the market that is not audited or reviewed by an external auditor.

The Company has an effective system of internal control and multiple review and approval stages which it applies to public documents that are not reviewed or audited by its external auditor

Principle 5 - Make timely and balanced disclosure

Recommendation 5.1: A listed entity should (a) have a written policy for complying with its continuous disclosure obligations under Listing Rule 3.1.

The Company maintains a written policy that outlines the responsibilities relating to the Directors, officers, and employees in complying with the Company's disclosure obligations. The Continuous Disclosure Policy requires all executives and Directors to inform the CEO / Executive Director or, in his absence, the Company Secretary of any potentially material information as soon as practicable after they become aware of that information. No member of the Company shall disclose market sensitive information to any person unless they have received acknowledgement from the ASX that the information has been released to the market.

The Company's Continuous Disclosure Policy is available on Dominion's website.

Recommendation 5.2: A listed entity should ensure that its board receives copies of all material market announcements promptly after they have been made.

The Company ensures that Directors are provided with a copy of all material market releases either prior to, or promptly after, lodgement

Recommendation 5.3: A listed entity that gives a new and substantive investor or analyst presentation should release a copy of the presentation materials on the ASX Market Announcements Platform ahead of the presentation.

The Company ensures that any new substantive investor or analyst presentation is released on the ASX Markets Announcements Platform ahead of being presented, or made available to, investors or analysts.

Principle 6 - Respect the rights of security holders

Recommendation 6.1: A listed entity should provide information about itself and its governance to investors via its website.

The Company maintains information in relation to governance documents, Directors and senior executives, Board and committee charters, annual reports, ASX announcements and contact details on the Company's website.

Recommendation 6.2 and 6.3: A listed entity should design and implement an investor relations program to facilitate effective two-way communication with investors (6.2).

A listed entity should disclose the policies and processes it has in place to facilitate and encourage participation at meetings of security holders (6.3).

The Company maintains a shareholder communication policy that describes the approach taken by the Company to communicate with investors. The Company aims to ensure that shareholders are informed of all major developments affecting the group.

Significant announcements and reports submitted to the ASX are posted on the Company's website. The Company also maintains an investor mailing list to email significant announcements.

Shareholders are also able to submit questions to the Company via email.

The Company encourages shareholders to attend its general meetings. Shareholders who are unable to attend the Company's general meetings are able to appoint proxies in advance of the meeting.

CORPORATE GOVERNANCE STATEMENT

Recommendation 6.4: A listed entity should ensure that all substantive resolutions at a meeting of security holders are decided by a poll rather than by a show of hands.

The Company has adopted the process required by ASX Guidance Note 35 which stipulates that all Listing Rule resolutions be decided by poll. The Company has extended the conduct of a poll to all resolutions proposed at shareholder meetings

Recommendation 6.5: A listed entity should give security holders the option to receive communications from, and send communications to, the entity and its security registry electronically.

The Company's share registry manages the majority of communications with shareholders. Shareholders are encouraged to receive correspondence from the Company electronically, thereby facilitating a more effective, efficient, and environmentally friendly communication mechanism with shareholders. Shareholders not already receiving information electronically can elect to do so through the share registry.

Principle 7- Recognise and manage risk

Recommendations 7.1 & 7.2: The board of a listed entity should: (a) have a committee or committees to oversee risk, each of which: (1) has at least three members, a majority of whom are independent directors; and (2) is chaired by an independent director, and disclose: (3) the charter of the committee; (4) the members of the committee; and (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework (7.1).

The board or a committee of the board should: (a) review the entity's risk management framework at least annually to satisfy itself that it continues to be sound; and (b) disclose, in relation to each reporting period, whether such a review has taken place (7.2).

The Company does not currently have a dedicated Risk Committee as the Board considers it more efficient and effective to perform the functions of the Risk Management Committee at Board level rather than committee level.

The Board reviews the company's risk management framework annually to ensure that it is still suitable to the company's operations and objectives and that the company is operating within the set risk parameters.

Recommendation 7.3: A listed entity should disclose: (a) if it has an internal audit function, how the function is structured and what role it performs; or (b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.

The Company does not currently have a separate internal audit function. The Board have determined that because of the limited resources of the Company and the scope of the risks involved it is more appropriate for the Board as a whole to monitor the need for a separate internal audit function. The Board also monitors the Company's internal control processes, including risk management.

The Company's external auditors undertake a half year review and full year audit as required under the Corporations Act 2001. The Board has regular meetings and contact with the external auditors during the year for the review and audits.

Recommendation 7.4: A listed entity should disclose whether it has any material exposure to economic, environmental, and social sustainability risks and, if it does, how it manages or intends to manage those risks.

Refer below for disclosures relating to the Company's material business risks (including any material exposure to economic, environmental, or social sustainability risks). Refer to commentary at Recommendations 7.1 and 7.2 for information on the Company's risk management framework.

CORPORATE GOVERNANCE STATEMENT

A summary of the key risks to which the Company is exposed is provided in section 8.2 of the Prospectus dated 8 September 2021. The Board considers that summary continues to be an accurate summary of the Company's key business risks.

Principle 8- Remunerate fairly and responsibly

Recommendation 8.1: The board of a listed entity should: (a) have a remuneration committee which: (1) has at least three members, a majority of whom are independent directors; and (2) is chaired by an independent director, and disclose: (3) the charter of the committee; (4) the members of the committee; and (5) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or (b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.

The Board considers that the Company is not currently of a size to justify the formation of a separate Remuneration Committee. Accordingly, the Board as a whole oversees the Company's Remuneration Policy and monitors remuneration outcomes to promote the interests of shareholders by attracting, rewarding, motivating, and retaining Directors and senior executives. The Company's Remuneration Policy is available on the Company's website.

Where necessary, the Board also seeks advice from external advisors on the appropriateness of remuneration packages.

Recommendation 8.2: A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.

Non-executive Directors can be remunerated by way of cash fees, superannuation contributions and non-cash benefits in lieu of fees.

The level of remuneration reflects the anticipated time commitments and responsibilities of the position. Performance based incentives are not available to Non-executive Directors. Executive Directors and other senior executives can be remunerated using combinations of fixed and performance-based remuneration. Fees and salaries are set at levels reflecting market rates and, where used, performance-based remuneration is linked directly to specific performance targets that are aligned to both short and long term objectives. Further details in relation to the Company's remuneration policies are contained in the Remuneration Report, within the Directors' report in the Company's Annual Report.

Recommendation 8.3: A listed entity which has an equity-based remuneration scheme should: (a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and (b) disclose that policy or a summary of it.

The Company's Securities Trading Policy provides that Directors, key management personnel, employees and contractors of Dominion who hold Dominion securities under an incentive plan, offered by Dominion from time to time, must not sell, create a security interest in, or otherwise dispose or deal with their Dominion securities, or any of their interests in any of those Dominion securities, without the prior written consent from Dominion.

Dominion Directors and key management personnel are also prohibited from entering into transactions which limit the economic risk of participating in invested entitlements. This prohibition includes hedging of unvested options or any other activity which may negate the incentive such options provide.
